News from the Faculty Research Support Service

Did you know?

ChatGPT4 is now free for everyone?

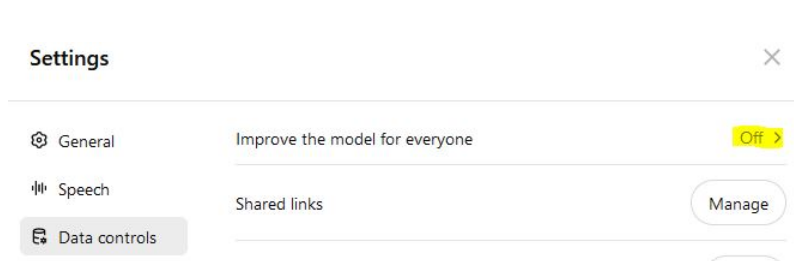

Everyone now has access to the following features:

- [Analyze data and create graphs](#)
- [Upload files for help summarizing, writing or analyzing](#)
- Discover and use [GPT's](#) and the [GPT Store](#)

The Faculty Research Support Office has already created a CustomGPT that can link your research profile to relevant opportunities.

Concerned about privacy? Go to your profile settings and turn off 'improve model for everyone' under 'Data controls'

Try it here

Opportunities

[Making sense of cells. The role of AI in advancing biomedical and computational biology](#)

Gain insight into the practical applications of AI in shaping:

- data analysis
- analyzing single-cell data
- deciphering complex biological networks
- advancing our understanding of cellular processes

Date and time: 12 jun 2024 16:00 - 19:00

[Webinar Jo Dewulf: Contribution to
inaccessibility as resource impact method: A
base for sustainable resource management
along the life cycle](#)

Professor Jo Dewulf recently completed a CWO-supported sabbatical focused on new sustainability assessment methods. In this webinar, he explains how this approach provides insight into the impact of human activities on resources and highlights the importance of circular economy strategies.

Date and time: June 20, 7 p.m.

This session provides an in-depth overview of methodological advances and practical applications resulting from the sabbatical.

More info on sabbaticals

Ghent University-trip to the US

From December 7 to 15, 2024, UGent is organizing a trip to the United States, focusing on Missouri, Indiana, Illinois, Michigan and Maryland. Led by the rector, (partner) institutions will be visited to strengthen collaborations and explore new opportunities.

Interested in participating? Send your feedback and interest in participating no later than 17 June to isabelle.decoen@UGent.be.

Interested parties will be invited to an initial consultation on June 24.

News

Election Debate 2024

The [Algemeen Boerensyndicaat](#) organized an election debate focused on agriculture on May 21, where political parties presented their positions to give farmers and stakeholders insight into agricultural policy.

UGent was prominently present thanks to the support

of the [UGent-Crelan Chair](#), which promotes agricultural research communication to a wider audience.

Thus, Professor Carl Devos of UGent was able to act as moderator and students of agricultural economics had made detailed comparisons of the party programs, analyzing policy proposals around sustainability, subsidies, market access and technological innovation.

[Read more about the debate here](#)

[Researcher from our faculty receives prestigious Fulbright Grant](#)

Pieter Nachtergaele has received a Fulbright Grant in recognition of his outstanding research work. Pieter will conduct his project “Prospective Sustainability Assessment of Biomass-Derived Chemicals” at the University of California, Davis next academic year.

We encourage everyone in the faculty to consider and pursue the opportunities offered by Fulbright. More information about current grantees and the application process can be found on the [Fulbright](#) website.

Info Basic Funding

The Research Support Service organized May 30 an info session on Basic Funding through the Special Research Fund. This is provided for research-active ZAP members with an appointment of at least 50% (possibly combined).
