MISSION

The **Financial Law Institute** is a research and teaching unit within the Law School of Ghent University. The research activities within the Institute focus on various issues of **company and financial law**, including private and public banking law, capital markets regulation, insolvency law, company law and corporate governance.

The FLI's research projects are mostly internationally oriented, based on comparative legal analysis and focussing on the intersection of two or more research areas.

CONTRIBUTIONS TO SCIENCE, SOCIETY AND ECONOMY

The research of the Financial Law Institute focuses on the interactions between firms, consumers, financial markets and market supervisors. By doing so we provide

scientific insights and data for corporate and public governance.

Our scientific research underpins our work as members of supervisory bodies and regulatory advisory committees. We are involved in the drafting of new legislation,

give advice to lawyers, and assist in dispute settlement related to financial services.
